

Outcome Measurement Toolkit

	Step 1: Logic Model	Step 2: Outcome Measures and Data Collection Plan	Step 3: Data Analysis & Evaluation	Step 4: Communication	Step 5: Begin Again
Objectives: Here's what you need to do:	<ol style="list-style-type: none"> 1. Understand the outcome measurement process. 2. Create and submit a logic model for your organization or project. 3. Test possible outcomes. 4. Determine and submit short and long term outcomes. 	<ol style="list-style-type: none"> 1. Determine which data tools best meet your organization's needs. 2. Complete and submit the Outcome Measurement Framework. 	<ol style="list-style-type: none"> 1. Collect data. 2. Tabulate the data. 3. Analyze the data by breaking it out in key characteristics. 4. Evaluate data and data collection procedure. 	<ol style="list-style-type: none"> 1. Determine which charts best communicate the data story. 2. Prepare and submit an outcome report for stakeholders. 	
Resources: Here's the information you need to do it:	<ul style="list-style-type: none"> • Outcome Information Handout • Overview of Outcome Process • Sample Logic Model • Outcome Tester 	<ul style="list-style-type: none"> • Outcome Measurement and Data Collection Overview • Sample Outcome Measurement Framework • Data Tool Survey 	<ul style="list-style-type: none"> • Data Analysis Overview 	<ul style="list-style-type: none"> • Reporting Overview • Sample Outcomes Report 	
Tools and Templates: Here's what you need to submit:	<ul style="list-style-type: none"> • Logic Model Template <i>(Due at time of funding request)</i> 	<ul style="list-style-type: none"> • Outcome Measurement Framework Template <i>(Due within 30 days of funding approval)</i> 		<ul style="list-style-type: none"> • Outcome Report Template <i>(Due within 30 days of project end date.)</i>
